To qualify for Walkaloosa registration, horses must show Appaloosa coloring that is visible from a ten-foot distance **and** must demonstrate the ability to perform an intermediate gait (other than the trot) such as the rack, foxtrot, running walk, single-foot, pace, etc.

The "Gait" must be certified by a veterinarian, horse show judge or professional horse trainer on the application form. Or you may send in a performance video that clearly shows the horse gaiting; please refer to the Rules for Registration Video for details.

Please note: Any horse which is found to have unnatural markings will be rejected for registration and the owner may be barred from the WHA.

The Walkaloosa Horse Association does not register horses with a combination of Pinto / Paint and Appaloosa coat patterns. The WHA registry is for those horses that meet the criteria for registration established in 1983." If your horse is showing Pinto / Paint patterns, there is a separate registry for Pintaloosa horses (<http://internationalpintaloosahorseregistry.yolasite.com>)

This application form has two pages; please fill out both pages completely. The first page of the application is the pedigree form, please complete as much as possible and if available copies of any registrations for the horse's dam or sire. WHA will give recognition to both parent's pedigrees, so please provide the sire and dam information as well.
